Augusto

Augusto

Rivisitare lo stile classico: questo è l'obiettivo di Augusto, un programma in grado di inserirsi con disinvoltura sia in un contesto moderno che affiancato a un arredo più tradizionale. Il legno è incontrastato protagonista, insieme al caratteristico pomolo Prisma. Il fregio a diamante e le cornici diventano ulteriori peculiarità del modello, firme di un intramontabile stile.

Augusto model has a purpose: to revisit the classical style. This collection can be easily placed both in a modern and in a more traditional context. Wood is the leading character, together with the peculiar knob Prisma. But also the diamond-shaped fronts and the frames play their important part in this model, becoming signs of an everlasting style.
