GRES PORCELLANATO SMALTATO - GLAZED PORCELAIN STONWARE - GRES CERAME EMAILLE  
GLASIERTES FEINSTEINZEUG - GRES PORCELÁNICO ESMALTADO - ГЛАЗУРОВАННЫЙ КЕРАМОГРАНИТ

Ceramica Rondine takes its inspiration from the industrial allure of a metropolitan loft, with the powerful expressive style of classic open brickwork, in a versatile, hard-wearing, beautifully adaptable material: porcelain stoneware.

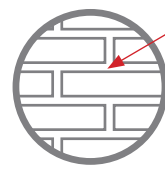

Brick Generation is the perfect blend of the contemporary and the timeless – floor and wall coverings that offer an impressively genuine reproduction of the appearance and feel of brick surfaces. The rough texture and natural porosity are featured in a wide range of colours that bring all the enthralling appeal of brick back to life in a thickness of just 10 mm.

Ceramica Rondine si lascia ispirare dal fascino industriale di un loft metropolitano e dalla potenza espressiva del classico mattone con faccia a vista, per indagare ancora una volta un materiale versatile e resistente, che offre al contempo infinite possibilità di resa estetica: il gres porcellanato. Si chiama Brick Generation ed è una perfetta sintesi di contemporaneità e fascino atemporale. Parliamo infatti di un pavimento e di un rivestimento che riproduce con impressionante fedeltà la superficie e la resa tattile del mattone. La sua ruvidità, la sua naturale porosità viene proposta e declinata in un'ampia tavolozza cromatica che fa rivivere, in 10 mm di spessore, l'affascinante essenza del mattoncino.
