

A misty forest of evergreen trees, likely spruce or fir, with a soft, hazy atmosphere. A large, solid black diagonal shape cuts across the image from the top-left corner towards the bottom-right, creating a high-contrast background for the text.

## NATURAL STYLE, PREMIUM PERFORMANCE

Home is where you can be your truest self. Where you walk around barefoot after a long day. The place you watch your kids grow up in, spilling ice cream along the way. Where your dog follows you around, leaving trails of fun-filled outdoor walks.

**Your home expresses who you are. It's authentic. To the core.  
Just like our Authentics Collection.**

Mirroring genuine wood and stone, these new designs are as real as it gets. Unparalleled 3-dimensional structure. Exceptionally natural appearance. Undeniable durability. Designed for real homes and real people.

Can you feel it?
