IT Questo territorio ricco di storia, culla dell'antica civiltà falisca, dominato dalla maestosità solitaria del monte Soratte, ha sempre affascinato poeti, pittori, eremiti. Un paesaggio dolce e aspro: Gallese, Lazio.

EN The local surroundings are rich in history, the cradle of the ancient Faliscan civilization, over which Monte Soratte looms in solitary majesty. It is a region that fascinated poets, painters and hermits with its countryside, both harsh and mild: Gallese, Lazio.

DE Die geschichtsträchtige Gegend des nördlichen Latium, Wiege der antiken Zivilisation der Falisker, beherrscht von der majestätischen Einsamkeit des Monte Soratte, zieht seit jeher Dichter an, Maler, Einsiedler. Eine Landschaft, gleichzeitig süß und rau: Gallese, Lazio.

IT **Terra e acqua sono gli elementi che da sempre, dosati e mescolati con sapiente perizia, coesistono armonicamente nella forma dei manufatti.**

Sono millenni che qui, nel nostro territorio, si produce la ceramica: con la terra e l'acqua, suggellate dal fuoco.

EN **Blended and dosed with great skill, water and earth coexist harmonically in the forms of manufactures. Here in our countryside ceramics have been produced for millennia: with earth and water sealed by fire.**

DE **Land und Wasser sind die Elemente, die, wohldosiert und klug gemischt, schon immer harmonisch in den Formen der Manufakturwaren nebeneinander existiert haben. Seit Jahrtausenden wird hier, in unserer Gegend, Keramik hergestellt, werden Land und Wasser durch Feuer versiegelt.**

IT La nostra azienda ha sede nell'affascinante campagna laziale, in un paesaggio di straordinaria bellezza che va tutelato. È anche per questo che in GSI tradizione, passione, tecnologia, rispetto delle persone e dell'ambiente, sono valori da sempre naturalmente congiunti.

EN GSI has its headquarters in the enchanting Lazio countryside, a place of outstanding beauty, and one that needs to be protected at all costs. For our company, tradition, passion, technology, respect for people and the environment have always been naturally coinciding values.

DE Unsere Betrieb liegt inmitten der faszinierenden und schützenswerten landschaftlichen Schönheit der Region Latium. Auch deshalb gelten bei GSI Tradition, Einsatzfreude, Technologie und Achtung der Person und der Umwelt als Werte, die seit jeher untrennbar miteinander verbunden sind.

IT Una tradizione resiste nel tempo solo se si è capaci di rinnovarla di continuo. Ecco perché GSI ha deciso di valorizzare le proprie maestranze, mettendo a disposizione della loro competenza e abilità i macchinari più avanzati tra quelli oggi disponibili nel settore ceramico. Andare oltre con la tradizione, con l'unico scopo di realizzare il prodotto migliore possibile.

EN A tradition survives over time only if it is constantly able to renew itself. This is why GSI has decided to make the best use of our staff, entrusting the most advanced equipment available in the ceramics sector to their knowledge and skills. To continue to move forward but with tradition behind us while creating the best possible product.

DE Eine Tradition übersteht die Zeit nur, wenn Sie in der Lage ist, sich beständig zu erneuern. Aus diesem Grund hat GSI beschlossen, nicht nur die Kompetenz und Fähigkeiten der eigenen Belegschaft zu nutzen, sondern ihr auch die modernsten Maschinen zur Verfügung zu stellen, die heute in der Keramikbranche verwendet werden. Die Tradition begleitet uns dabei aus dem alleinigen Grund, ein noch besseres Produkt schaffen zu können.

IT GSI crede nell'innovazione, perché sa che una tecnologia all'avanguardia migliora la qualità del prodotto. Ma la nostra è un'azienda consapevole che senza il fattore umano, vale a dire senza il cuore, la testa, le mani di chi ogni giorno si reca in fabbrica, nessuna tecnologia sarebbe in grado di dare forma e sostanza al progetto.

EN At GSI we believe in innovation because we know that cutting-edge technology will improve our products. But we are aware that without the human factor, heads and hearts and hands of people who show up at the factory every morning, no technology can breathe form and life into a project.

DE Bei GSI setzt man auf Innovation, weil man weiß, dass Spitzentechnologie die Qualität des Produktes zur absoluten Zufriedenheit ihrer Kunden verbessert. Aber wir sind immer noch ein Unternehmen, dass sich sehr wohl darüber bewusst ist, dass ohne den Faktor Mensch, und das heißt, ohne Herz, Kopf, die Hände all derer, die sich jeden Tag ins Werk begeben, keine Technologie in der Lage wäre, einem Projekt wirklich Form und Inhalt zu geben.

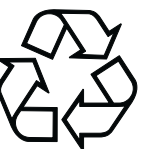

IT La percentuale di oggetti GSI che non passa la fase di controllo qualità è piuttosto bassa, risultato di anni di intenso lavoro di innovazione in ciascuna fase produttiva. Ma anche gli scarti rientrano in un ciclo virtuoso di recupero: alcuni sono frantumati per poter essere utilizzati come argilla refrattaria, altri vengono smaltiti nel rispetto della sostenibilità ambientale.

EN The percentage of GSI products that do not get through the inspection phase is actually quite small; this is the result of intense efforts to innovate every phase of the production process. But even discarded pieces reenter a virtuous cycle of recovery: some are broken up to be reused as fire clay, others are glazed to meet the needs of environmental sustainability.

DE Der Prozentanteil der Objekte, die die Qualitätskontrolle nicht passieren, ist bei GSI relativ gering. Das ist das Ergebnis von jahrelanger, harter Arbeit an den Innovationen in jeder Phase der Herstellung. Gleichzeitig aber auch Teil eines positiven Kreislaufs von Rückgewinnung: Einige werden für die Verwendung als Schamotte zerkleinert andere unter Beachtung der ökologischen Nachhaltigkeit verwertet.

IT Partecipe ed interprete del Made in Italy nel mondo, GSI negli anni ha contribuito alla realizzazione di complessi progetti di interior coniugando funzionalità, design e artigianalità. Attitudini che hanno reso possibile la collaborazione con eccellenze internazionali dell'ospitalità come il Tiara Chateau Hotel di Parigi, il Madinat Jumeirah di Dubai, il Vip Grand di Lisbona, il Yas Marina di Abu Dhabi, l'Adler Lodge Ritten, l'Adler Hotel Alpe di Siusi, il Quellenhof Luxury Resort Lazise, il Quellenhof Luxury Resort Sudtirolo, il Falkensteiner Hotel & Spa di Jesolo, Rocco Forte Hotel Villa Igiea e molti altri.

EN Participant and interpreter of Made in Italy throughout the world, over the years GSI has contributed to the realization of complex projects of interior settings that combine functionality, design and craftsmanship. These attitudes have led to relationships with global leaders in the hospitality industry like the Tiara Chateau Hotel in Paris, the Madinat Jumeirah in Dubai, the Vip Grand in Lisbon, the Yas Marina in Abu Dhabi, the Adler Lodge Ritten, the Adler Hotel Alpe di Siusi, the Quellenhof Luxury Resort Lazise, the Quellenhof Luxury Resort Sudtirolo, the Falkensteiner Hotel & Spa in Jesolo, Rocco Forte Hotel Villa Igiea and many others.

DE Als Protagonist und Interpret des internationalen Made in Italy hat GSI in den Jahren bei der Realisierung vieler komplexer Innenrichtungsprojekte mitgewirkt und wusste dabei stets Funktionalität, Design und Kunstfertigkeit zu vereinigen. Qualitäten, die die Zusammenarbeit mit internationalen Exzellenzen im Bereich Hospitality wie dem Tiara Chateau Hotel von Paris, dem Madinat Jumeirah in Dubai, dem Vip Grand von Lissabon, dem Yas Marina von Abu Dhabi, der Adler Lodge Ritten und dem Adler Hotel Alpe in Seis, dem Quellenhof Luxury Resort Lazise, dem Quellenhof Luxury Resort Südtirol, dem Falkensteiner Hotel & Spa in Jesolo, Rocco Forte Hotel Villa Igiea und vielen weiteren großen Häusern ermöglicht haben.

IT GSI arricchisce la propria famiglia di prodotti con la gamma Color Elements: otto tinte opache ispirate alla natura accompagnano selezionati prodotti delle collezioni Nubes, Pura e Kube X. I sanitari della collezione presentano la speciale finitura Dual Glaze+, che combina la smaltatura opaca all'esterno con quella lucida Extraglaze® Antibacterial nelle parti idrauliche a contatto con l'acqua, evitando macchie ed antigenici residui calcarei.

EN GSI has enriched its family of products with Color Elements: eight matt shades inspired by nature accompany select products in the Nubes, Pura and Kube X collections. This collection's sanitaryware has the special Dual Glaze+ finish, combining an external matt glaze with a glossy Extraglaze® Antibacterial for hydraulic components staying in contact with water. This helps to avoid stains and unhygienic lime deposits.

DE GSI bereichert die firmeneigene Produktfamilie mit der Color Elements Palette: acht matte Farben, die sich an der Natur inspirieren begleiten ausgewählte Produkte der Kollektionen Nubes, Pura und Kube X. Die Sanitärobjekte der Kollektion bieten das ganz besondere Finish Dual Glaze+, bei dem die matte Glasur der Außenseite mit der Glanzglasur Extraglaze® Antibacterial an den in Kontakt mit Wasser befindlichen Teilen kombiniert wird, wodurch Flecken und unhygienische Kalkablagerungen vermieden werden.

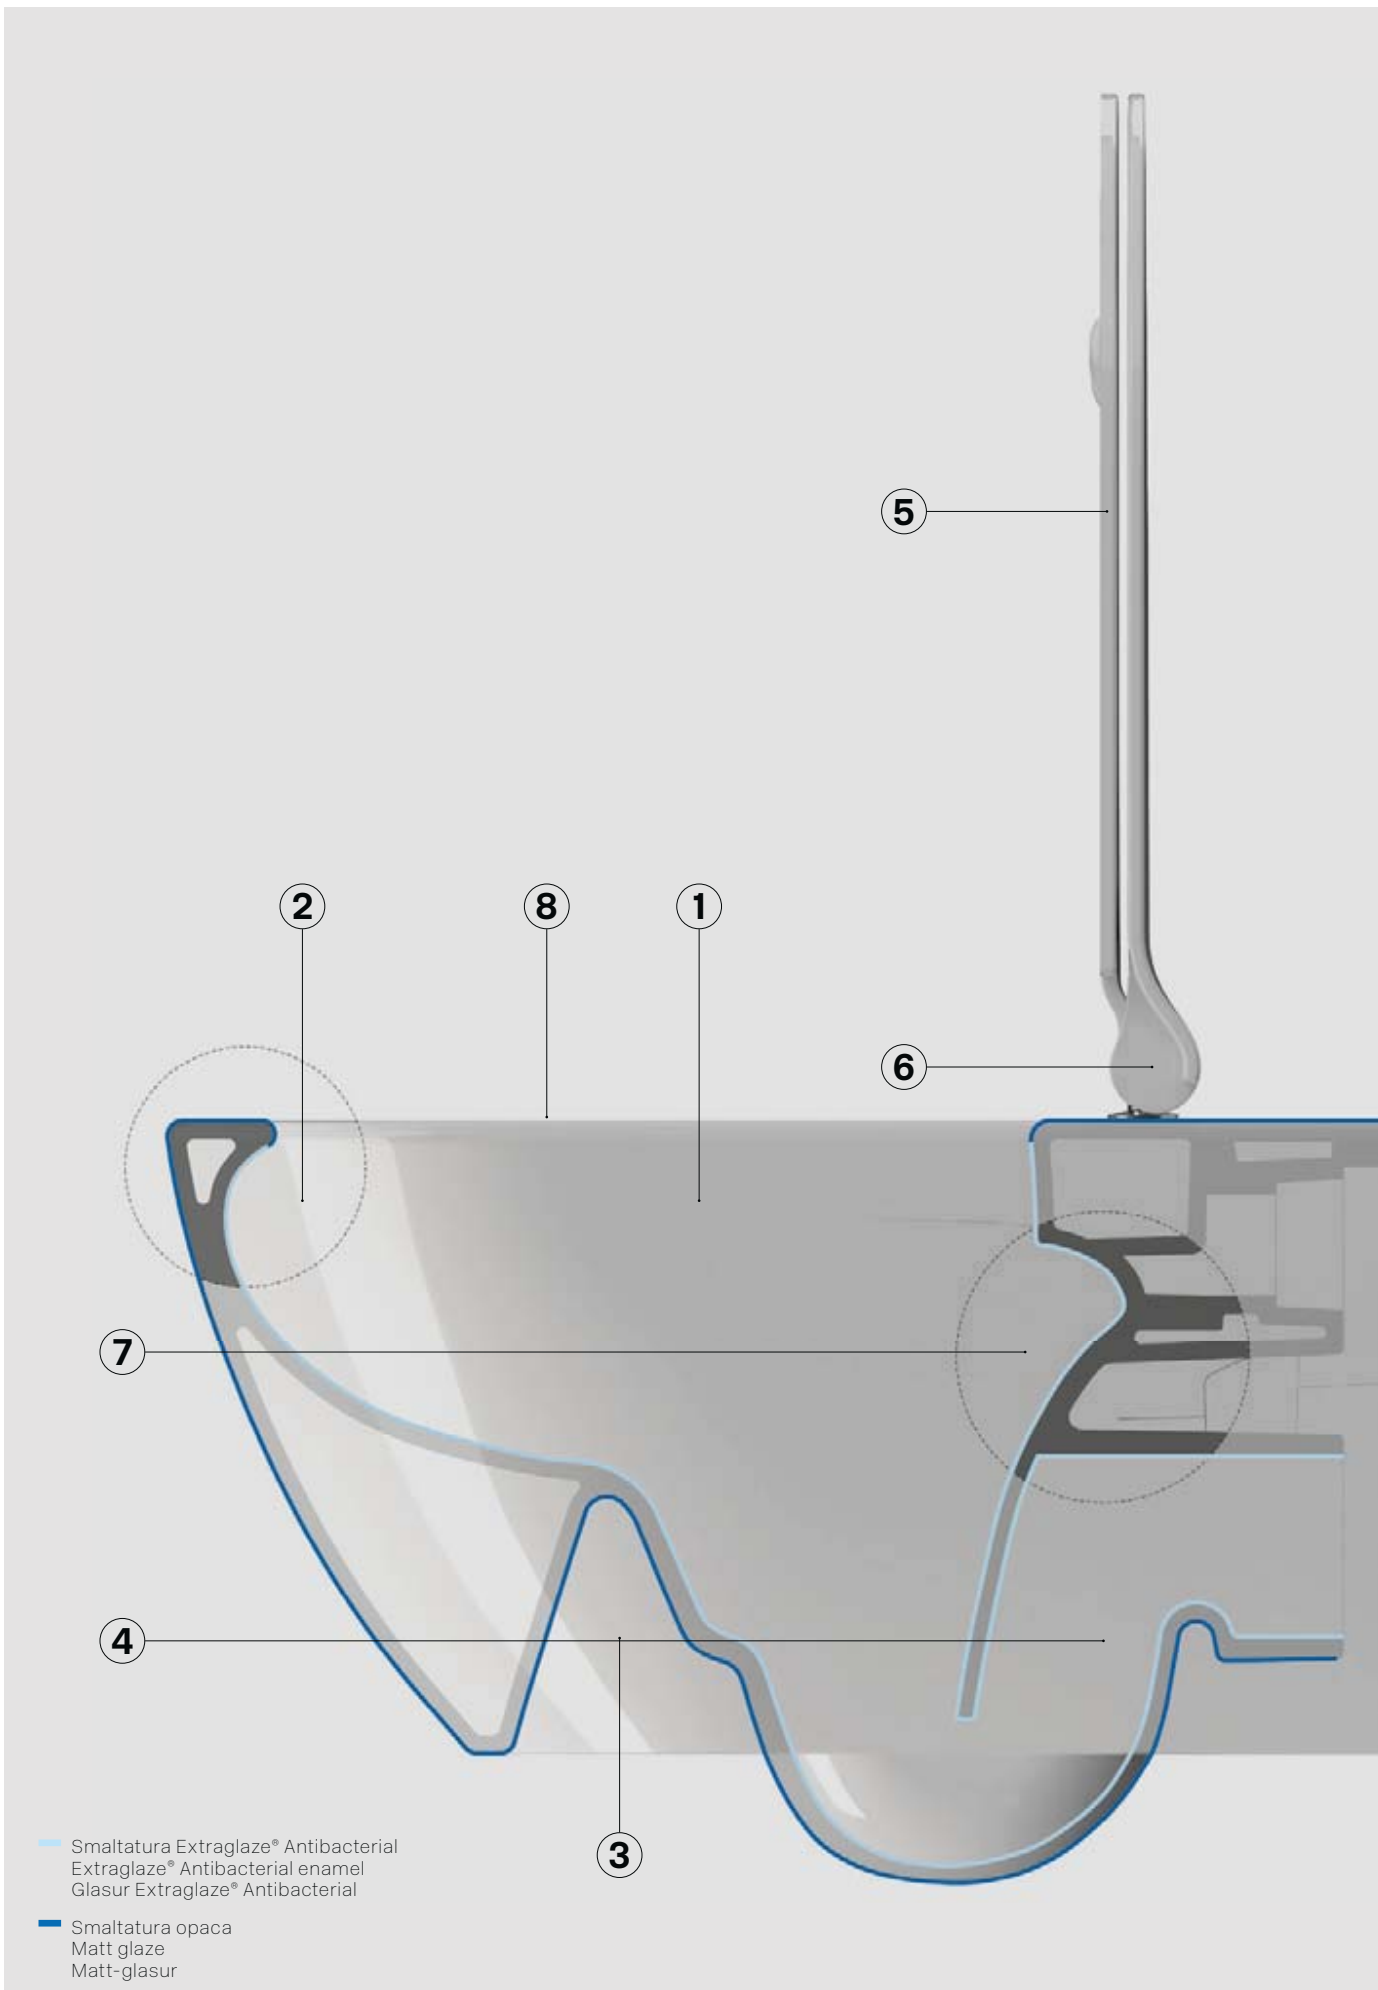

IT Un buon progetto può definirsi tale solo se estetica e design sono supportati da igiene, sicurezza, durevolezza e affidabilità. Per garantire tutti questi aspetti GSI Ceramica ha sviluppato una serie di innovazioni tecnologiche da un elevato standard funzionale: numerosi Plus brevettati, in dotazione sulla quasi totalità delle collezioni disponibili.

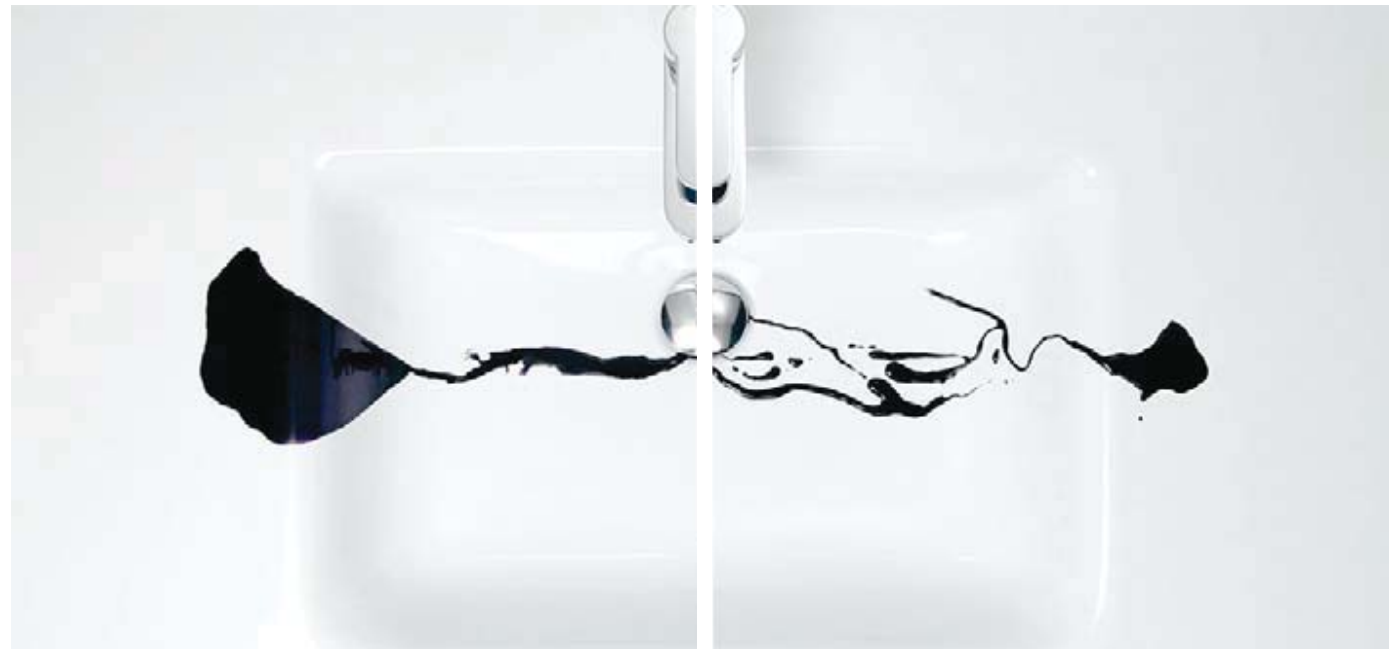

EN A good project can be considered as successful only if aesthetics and design are backed up by the right levels of hygiene, safety, durability and reliability. To ensure compliance with quality levels regarding these aspects, GSI Ceramica has developed a number of technological innovations and quality patented products, which have been added to practically all its collections.

DE Ein gutes Projekt kann nur dann als solches definiert werden, wenn Ästhetik und Design durch Hygiene, Sicherheit, Dauerhaftigkeit und Zuverlässigkeit gestützt werden. Zur Gewährleistung all dieser Aspekte hat GSI Ceramica eine Reihe technologischer Innovationen ausgehend von einem hohen Funktionsstandard entwickelt: zahlreiche patentierte Plus-Funktionen, mit denen fast alle erhältlichen Kollektionen ausgerüstet sind.

1. Extraglaze® Antibacterial

IT GSI implementa igiene e brillantezza con lo smalto Extraglaze® Antibacterial, la speciale formula arricchita con ioni di Argento e Titanio che assicura un'azione antibatterica certificata ISO 22196. I prodotti trattati con Extraglaze® Antibacterial sono più resistenti agli agenti chimici, e grazie all'estrema levigatezza e brillantezza, sono protetti da calcare e batteri e rimangono pulite più a lungo.

EN GSI provides hygiene and shininess with the Extraglaze® Antibacterial glaze, the special formula enriched with silver and titanium ions that ensures ISO 22196 certified antibacterial action. The products treated with the Extraglaze® Antibacterial are more resistant to chemicals, and thanks to the extreme smoothness and brightness, they are protected from bacteria and limestone and stay clean longer.

DE GSI bietet Hygiene und Glanz mit der Extraglaze® Antibacterial - Glasur, der speziellen Formel, die mit Silber- und Titan Ionen angereichert ist und eine nach ISO 22196 zertifizierte antibakterielle Wirkung gewährleistet. Auf diese Weise ist die Glasur ein Bestandteil der Keramik und dauerhaft wirksam. Die mit Extraglaze® Antibacterial -Glasur behandelten Produkte sind resistenter gegen Chemikalien und dank der glatten.

IT Igiene totale. Testato e certificato per una protezione antibatterica assicurata al 99,99%.

EN Total Hygiene. Tested and certified for guaranteed 99.99% antibacterial action.

DE Maximale Hygiene. Geprüft und zertifiziert für eine garantierte antibakterielle Wirkung von 99,99%.

IT Maggiore Brillantezza. Protegge dal calcare e conserva la brillantezza originaria della ceramica più a lungo.

EN Greater Shininess. Protects from limescale and preserves the ceramic's original shininess for much longer.

DE Größerer Glanz. Schützt vor Kalkablagerungen und erhält den ursprünglichen Glanz der Keramik.

IT Pulizia rapida. La speciale azione antibatterica consente una pulizia più facile e rapida per l'igiene ordinaria.

EN Quick Cleaning. Special antibacterial action makes cleaning easier and faster for normal hygiene.

DE Schnelle Reinigung. Eine spezielle antibakterielle Wirkung erleichtert und beschleunigt die Reinigung für eine maximale Hygiene.

IT Rispetto per l'ambiente. La levigatezza delle superfici rende necessaria una minor quantità di prodotti per la pulizia.

EN Respect for the Environment. Surface smoothness means a smaller quantity of the product is needed for cleaning.

DE Respekt für die Umwelt und Nachhaltigkeit. Oberflächenglätte bedeutet, dass eine geringere Menge an Reinigungsmittel benötigt wird.

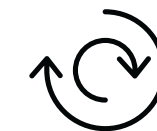

2. Swirlflush®

IT Silenzioso, igienico, pulito. La caratteristica più evidente del rivoluzionario ed esclusivo sistema brevettato Swirlflush® è l'assenza della tradizionale bordatura, la brida, all'interno della quale, in un normale wc, circola l'acqua al momento dello scarico. La conformazione del sistema di scarico Swirlflush® l'unico brevettato con un solo foro direziona l'acqua sulle superfici ceramiche in maniera uniforme assicurando una pulizia ottimale migliorando le performance di scarico e riducendo al minimo il rumore (solo 64 db invece dei 72 di un wc standard).

EN Silent, hygienic, clean. The main characteristic of the revolutionary and exclusive Swirlflush® patented system is the absence of the traditional edge, the rim inside which, in a standard WC water circulates when flushing. The special shape of the Swirlflush® flushing system, the only one patented with a single hole, steers flush water evenly on ceramic surfaces, ensuring perfect cleansing, better draining, and minimising noise (only 64 db instead of 72 of a standard wc).

DE Leise, hygienisch, sauber. Das offensichtlichste Merkmal des revolutionären Patentsystems Swirlflush® ist das Fehlen des traditionellen Spülrands, in dessen Inneren bei einem normalen WC das Wasser beim Spülvorgang strömt. Die Gestaltung des Swirlflush® das einzige WC mit einem Wasserausgang Spülsystems richtet den Wasserstrahl gleichmäßig auf die Keramikoberflächen und sichert dadurch optimale Reinigung und die Verbesserung der Spüleistung bei gleichzeitiger Dämpfung des Spülgeräusches (nur 64 dB gegenüber den 72 einer Standardtoilette).

IT Silenziosità. Il nuovo sistema di risciacquo garantisce estrema silenziosità durante la fase di scarico.

EN Noise. The new rinse system minimizes noise during flushing.

DE Leise. Das neue Spülsystem sorgt für einen besonders leisen Spülvorgang ohne lästige Geräusche.

IT Pulizia rapida. Il design Swirlflush®, non presentando parti nascoste, facilita le normali operazioni di pulizia del sanitario.

EN Quick Cleaning. The Swirlflush® design has no hidden parts, and thus routine cleaning operations are made easier

DE Schnelle Reinigung. Das Design von Swirlflush® keine verborgenen oder schwer erreichbaren Teile beinhaltet, werden ferner die normalen Reinigungsvorgänge des WCs erleichtert.

IT Igiene totale. L'assenza della brida, la tradizionale bordatura dove in un normale wc scorre l'acqua, evita la formazione di calcare e il deposito di batteri.

EN Total Hygiene. This WC does not have a rim, the edge beneath which water flows in a traditional normal lavatory. This prevents the formation of limescale and the depositing of bacteria.

DE Maximale Hygiene. Das Fehlen des traditionellen Spülrands, unter dem für gewöhnlich das Wasser ins WC strömt, vermeidet die Ansammlung von Kalkablagerungen und Bakterien.

IT Rispetto per l'ambiente. La conformazione delle parti ceramiche a contatto con l'acqua consente le funzioni di scarico con un ridotto consumo di acqua.

EN Respect for the Environment. This lavatory flushes using less water thanks to the particular shape of ceramic parts making contact with water.

DE Respekt für die Umwelt und Nachhaltigkeit. Die Gestaltung der in Wasserkontakt stehenden Keramikteile ermöglicht eine Spülfunktion mit reduziertem Wasserverbrauch.

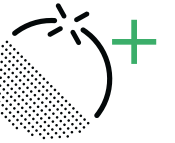

3. Dual Glaze+

IT Estetica e igiene non sono antagonisti, al contrario: il trattamento Dual Glaze+, studiato per un'igiene ottimale, combina la raffinata smaltatura opaca dell'esterno con quella interna lucida Extraglaze® Antibacterial nelle parti idrauliche a contatto con l'acqua. Si evitano così macchie ed antigienici residui calcarei, frequenti conseguenze della tipica porosità del prodotto in ceramica con un'unica finitura opaca.

EN Aesthetics and hygiene needn't exclude each other, on the contrary: the Dual Glaze+ treatment, specially designed for total hygiene, combines the elegant opaque finishing on the outside with the shiny, easily washable Extraglaze® Antibacterial glazing on the inside where parts come into contact with water. DualGlaze+ is designed to prevent unhygienic lime deposits, a frequent phenomenon due to the porous nature of ceramic products having a single matt finish.

DE Ästhetik und Hygiene schließen einander nicht aus, im Gegenteil: die Dual Glaze+ Behandlung, die zur Optimierung der Hygiene entwickelt wurde, kombiniert die raffinierte matte Glasur der Außenseite mit der Glanzglasur Extraglaze® Antibacterial an den in Kontakt mit Wasser befindlichen Teilen. Auf diese Weise werden Fleckenbildung und unhygienische Kalkablagerungen vermieden, die oftmals Folge jener typischen Porosität von Keramikprodukten mit einheitlich matt glasierter Oberfläche sind.

IT Igiene totale. Testato e certificato per una protezione antibatterica assicurata al 99,99%.

EN Total Hygiene. Tested and certified for guaranteed 99.99% antibacterial action.

DE Maximale Hygiene. Geprüft und zertifiziert für eine garantierte antibakterielle Wirkung von 99,99%.

IT Pulizia rapida. La speciale azione antibatterica consente una pulizia più facile e rapida per l'igiene ordinaria.

EN Quick Cleaning. Special antibacterial action makes cleaning easier and faster for normal hygiene.

DE Schnelle Reinigung. Eine spezielle antibakterielle Wirkung erleichtert und beschleunigt die Reinigung für eine maximale Hygiene.

IT Maggiore Brillantezza. Protegge dal calcare e conserva la brillantezza originaria della ceramica più a lungo.

EN Greater Shininess. Protects from limescale and preserves the ceramic's original shininess for much longer.

DE Größerer Glanz. Schützt vor Kalkablagerungen und erhält den ursprünglichen Glanz der Keramik.

IT Rispetto per l'ambiente. La levigatezza delle superfici rende necessaria una minor quantità di prodotti per la pulizia nonché una riduzione del consumo di acqua in fase di scarico.

EN Respect for the Environment. Fewer cleaning products are needed due to the smooth surfaces, and less water is consumed when flushing.

DE Respekt für die Umwelt und Nachhaltigkeit. Die Glätte der Oberflächen sorgt für einen verringerten Bedarf an Reinigungsmitteln sowie für eine Senkung des Wasserverbrauchs beim Spülen.

4. Save Water

IT Con la volontà di preservare il bene più prezioso che ci appartiene, GSI progetta i sanitari integrando lo speciale sistema di scarico Save Water, ottenuto grazie alla particolare conformazione delle parti ceramiche a contatto con l'acqua. Il sistema Save Water consente di eseguire le funzioni di scarico con soli 4,5 lt di acqua.

EN Aiming to preserve the most valuable asset that we have, GSI designs its sanitary ware with the special flush system Save Water, thanks to the special shape of the ceramic parts directly in contact with water. The Save Water system allows you to flush with just 4,5 litres of water.

DE Zum Schutz der wertvollsten Ressource des Menschen stattet GSI die gesamte Sanitärkeramik mit dem besonderen Spülsystem Save Water aus. Das vom GSI-Designerteam entworfene System ist das Ergebnis einer kontinuierlichen technischen Entwicklung und beruht auf der besonderen Form der Keramikteile, die in direktem Kontakt mit dem Wasser sind. Dank des Save Water-Systems werden beim Spülen nur 4,5 Liter verbraucht.

9

I litri di acqua generalmente utilizzati.
Liters of water generally used.
Allgemein verbrauchte Liter Wasser.

6

I litri richiesti dalle normative europee.
Liters required by European standards.
Von den europäischen Richtlinien vorgeschriebene Liter Wasser.

4,5

I litri di acqua utilizzati da un wc GSI.
Liters of water used by a GSI wc.
Von einem GSI-WC verbrauchte Liter.

5. Soft Close

IT Il sistema Soft Close predispose il copriwater per una chiusura rallentata, questo consentirà di evitare cadute accidentali e chiusure del copriwater troppo violente. I copriwater GSI sono realizzati con resine registrate FDA e EPA in grado di ostacolare la crescita di germi e batteri grazie alle proprietà degli ioni d'argento.

EN The Soft Close system predisposes the seat and cover for a slow closing, preventing accidental falls and violent closures of the seat and cover. GSI's toilet seats are made with FDA- and EPA-registered resins that can prevent the spread of germs and bacteria thanks to the action of silver ions.

DE Das Soft Close System sorgt für gebremstes Schließen des Toilettendeckels, wodurch versehentliches Herunterfallen und schlagartiges Schließen des Deckels vermieden werden. Die WC-Sitze von GSI werden aus Kunstharzen gefertigt, die bei den amerikanischen Behörden FDA und EPA registriert und in der Lage sind, das Wachstum von Keimen und Bakterien durch die Wirkung von Silberionen zu hemmen.

6. Quick Release

IT Il sistema Quick Release permette di estrarre il copriwater in maniera semplice e senza l'impiego di utensili in modo da eseguire le operazioni di pulizia anche nelle superfici generalmente difficili da raggiungere.

EN The Quick Release system, which it allows to pull out the seat and cover in a simple way and without the use of any tool. This will make it possible to clean the toilet seat and even the wc in areas that are usually difficult to reach.

DE GSI führt einen neuen WC-Sitz mit einem innovativen Installationssystem ein. Das neue Quick Release System unterscheidet sich von anderen durch die Einfachheit, mit der der WC-Sitz ohne den Einsatz von Werkzeugen abgenommen werden kann.

IT Matericità seducente e carattere distintivo, otto tinte matt ispirate alla natura accompagnano selezionati prodotti delle collezioni Nubes, Pura e Kube X. I wc presentano la speciale finitura Dual Glaze+, che combina la smaltatura opaca all'esterno del sanitario con quella lucida Extraglaze® Antibacterial nelle parti idrauliche a contatto con l'acqua, per garantire con un tratto esclusivo la massima igiene.

EN Seductive in their materiality and distinctive character, eight matt shades inspired by nature accompany select products in the Nubes, Pura and Kube X collections. The Wc's come with the special Dual Glaze+ finishing that combines an opaque glaze on the outside of the sanitary fixture with the shiny Extraglaze® Antibacterial glazing in the hydraulic sections in contact with water, an exclusive feature that guarantees maximum hygiene.

DE Verführerische plastische Note und große Persönlichkeit, acht der Natur entlehnte Matt-Töne prägen ausgewählte Produkte der Kollektionen Nubes, Pura und Kube X. Die WCs präsentieren sich in der Spezialausführung Dual Glaze+, d.h. sie sind an den Außenteilen mit matter Glasierung versehen, während die im Kontakt mit Wasser stehenden Teile in glänzender Extraglaze® Antibacterial-Glasur gehalten sind, um mit exklusiver Note für maximale Hygiene zu sorgen.

IT Rigore, leggerezza e versatilità, caratteristiche portanti della collezione Nubes. Una collezione raffinata che comprende prodotti d'avanguardia sia da un punto di vista stilistico che tecnologico, pensata per un pubblico esigente che si identifica in un'estetica contemporanea. I tratti distintivi dei lavabi Nubes sono la forma squadrata e un'innata versatilità conferita dal profilo a doppia fascia che consente l'installazione a sospensione, su mobile o mensola. Il bordo perimetrale, con i suoi soli otto centimetri a vista, attribuisce leggerezza ed equilibrio tra forma e spazio.

EN Rigour, lightness and versatility: these are the main features of the Nubes collection. A refined collection of cutting-edge products from both a stylistic and technological point of view, for demanding customers seeking a contemporary aesthetic. The distinguishing features of Nubes washbasins are their squareness and inherent versatility, provided by a dual fascia profile, allowing a wall-mounted, built-in or shelf-mounted installation. The edge of the basin, just eight centimetres of which are visible, provides lightness and balance between form and space.

DE Die stilistische Strenge, ihre Leichtigkeit und Vielseitigkeit sind grundlegende Merkmale der Kollektion Nubes. Eine raffinierte Kollektion mit Produkten, die sowohl in stilistischer als auch technologischer Hinsicht wegweisend sind und für eine anspruchsvolle Kundschaft entwickelt worden sind, die sich mit einer zeitgenössischen Ästhetik identifiziert. Die unterscheidenden Merkmale der Nubes Waschbecken sind ihre eckige Form und die angeborene Vielseitigkeit, die ihnen von ihrem Profil mit doppeltem Randstreifen verliehen wird, das die Montage sowohl hängend als auch auf Unterschrank oder Konsole aufgesetzt gestattet. Der nur auf acht Zentimeter Breite sichtbare Umrandungsstreifen verleiht Leichtigkeit und wahrt das Gleichgewicht zwischen Form und Raum.

IT **Kube X affina le forme geometriche a bordo sottile secondo la tendenza contemporanea. I sanitari presentano linee epurate combinati con l'innovazione tecnologica dei plus GSI: lo smalto Extraglaze® Antibacterial, il sistema di scarico Save Water, copriwater con sistema di estrazione rapida Quick Release e sistema di chiusura rallentata, sistema di scarico Swirlflush®. Selezionati prodotti sono disponibili nelle finiture Color Elements.**

EN **Kube X pares down geometric forms to slender edges in keeping with trends in contemporary design. Sanitary ware come in essential lines and are equipped with the technical innovation of GSI extras: the Extraglaze® Antibacterial glazing, the Save Water flushing system, toilet seats with the Quick Release mechanism and slow Soft-Close system, the Swirlflush® flushing system. Select products are available in Color Elements finishings.**

DE **Kube X präsentiert sich in geometrischen Formen mit dünner Umrandung im zeitgenössischen Geschmack. Alle Keramikteile weisen reine, schlanke Linien auf und sind mit den technischen Innovationen von GSI ausgestattet: Extraglaze® Antibacterial-Glasur, Save Water-Spülsystem, Toilettensitze mit Take-off System, dem Soft-Close-System und dem Swirlflush®-System. Ausgewählte Produkte sind in den Color Elements-Ausführungen erhältlich.**

IT Le linee semplici e regolari di Norm si declinano in un ampio spettro di dimensioni che risponde alle diverse esigenze di spazio e personalizzazione. I bacini capienti, la predisposizione per l'aggiunta di portasciugamani, le molteplici possibilità di installazione, i diversi sistemi di accessori e arredi abbinabili, rendono Norm particolarmente performante ai fini contract. I sanitari dispongono di tutti gli speciali plus GSI.

EN Norm's simple and elegant lines come in a wide range of sizes to meet a variety of needs for space and personalization. Capacious washbasins, the possibility to add towel racks, the many installation options and the different sets of accessories and matchable fittings make Norm a high performance collection ideal for subcontracting. The sanitary elements all come with GSI's special extras.

DE Die schlichten und regelmäßigen Linien von Norm gliedern sich in ein breites Größen-Spektrum für die verschiedensten Platz. Und Personalisierungs-Anforderungen. Geräumige Becken, die Möglichkeit des Einbaus von Handtuchhaltern, die vielfältigen Einbaumöglichkeiten, die unterschiedlichen Systeme für Zubehör- und kombinierbare Ausstattungsmerkmale machen Norm besonders für Gewerbe- und Büroflächen interessant. Die Sanitärarmöbel bieten alle Plus-Specials von GSI.

IT La collezione Pura si caratterizza per razionalità progettuale secondo i valori di semplicità e accuratezza che contraddistinguono GSI. Forme sobrie e spessori ultra sottili si combinano a morbidi arrotondamenti del bacino. Pura presenta anche una serie di lavabi da appoggio, disponibili nelle varianti di finiture Color Elements. I sanitari dispongono di tutti gli speciali plus GSI.

EN The Pura collection stands out for its rational design in keeping with the values of simplicity and precision that characterize GSI. Sober forms and ultra-slender edges accompany the supple curves of the washbasin. Pura also includes a set of countertop washbasins that are available in the various Color Elements finishes. Sanitary ware feature all the GSI extras.

DE Die Kollektion sticht durch planerische Rationalität, Sachlichkeit und Sorgfalt hervor, Werte, die GSI seit je her auszeichnen. Nüchterne Formen und hauchdünne Volumen verbinden sich hier mit den weichen Rundungen des Beckens. Pura beinhaltet auch eine Reihe von Aufsatz-Waschtischen in den verschiedenen Varianten der Color Elements-Ausführungen. Die Sanitärarmöbel bieten alle Plus-Specials von GSI.

IT Modo è la collezione premium economy composta da due coppie di sanitari, sospesa e da terra, caratterizzata da linee sinuose ed avvolgenti. Prodotti neutri, ma di grande impatto, che trovano immediata collocazione in differenti ambienti grazie ad una trasversalità che permette innumerevoli abbinamenti con lavabi di forme e installazione differenti. Modo è destinata ad un target che ha la necessità di ponderare la scelta d'acquisto sia in termini quantitativi che qualitativi. I sanitari prevedono tutti i Plus GSI disponibili: la smaltatura Extraglaze® Antibacterial, il sistema di scarico Swirlflush®, i copriwater ad estrazione rapida e senza utensili del sistema Quick Release abbinati al sistema di chiusura rallentata Soft Close.

EN Modo is the premium economy collection consisting of two pairs of sanitaryware items, wall-mounted and freestanding, characterized by their curvy forms. Products that are neutral yet make a great impact, and can find a home in different settings, allowing countless combinations with washbasins of different shapes and installation types. Modo is aimed at a customer target that needs to weigh up purchase choices in both quantitative and qualitative terms. The sanitaryware in this collection has all the benefits of GSI products: Antibacterial Extraglaze®, Swirlflush® system, Quick Release tool-free removal system and Soft Close system for toilet seats.

DE Modo ist die Premium Economy Kollektion, die sich aus zwei Paaren von - hängend oder am Boden stehend montierten - Sanitäröbekten zusammensetzt, welche durch ihre geschwungenen und umhüllenden Linien gekennzeichnet sind. Neutrale Produkte mit großer optischer Wirkung, die sich dank ihrer Universalität unmittelbar in unterschiedliche Umgebungen einfügen, da sie zahllose Kombinationen mit Waschbecken unterschiedlicher Formen und Montagearten gestatten. Modo ist für ein Target bestimmt, das seine Kaufentscheidung sowohl auf quantitative als auch auf qualitative Elemente stützt. Die Sanitäröbekte sind mit allen bei GSI verfügbaren Plus-Funktionen erhältlich: Glasur Extraglaze® Antibacterial, Spülsystem Swirlflush®, Toilettendeckel mit schneller und werkzeugloser Demontage dank dem System Quick Release und gebremste Absenkautomatik Soft Close.

IT Il linguaggio di ispirazione neoclassica guida la famiglia di lavabi e sanitari della storica collezione Classic. I lavabi sono installabili a sospensione, sottopiano o su colonna ceramica, abbinabili a sanitari a terra, a sospensione o monoblocco.

EN Neoclassical themes are the inspiration behind the GSI's historical collection of washbasins and sanitary ware. Washbasins can be mounted on the wall, undercounter or on a ceramic pedestal and are combinable with floor standing, suspended or close-coupled sanitary ware.

DE Einer neoklassizistischen Formensprache ist diese Familie von Waschtischen und Sanitär Möbeln der historischen Kollektion Classic verpflichtet. Die Waschtische lassen sich wandhängend, als Unterbau oder auf Keramiksäule einbauen und sind mit WC und Bidets in Boden-, Wand- oder Monoblock-Installation kombinierbar.

IT La collezione City declina differenti misure di lavabi installabili a sospensione o su mobile. I sanitari sono disponibili per installazione a pavimento o a sospensione, con copriwater sottili ad estrazione rapida Quick Release, sistema di chiusura Soft Close e sistema di scarico Save Water a 4,5 litri. Selezionati modelli di wc sospesi e a terra utilizzano la qualità tecnica ed efficienza del sistema di scarico Swirlflush®.

EN The City collection features washbasins of different sizes that can be mounted on walls or on cabinets. Sanitary ware are available for floor or wall installation with slender toilet seats using the Quick Release mechanism, the Soft-Close closure system and the 4.5 litre Save Water flushing system. Select models of wall mounted and floor standing Wcs use the technical features and efficiency of the Swirlflush® flushing system.

DE Die Kollektion City vereint unterschiedliche Größen von Waschtischen, die wandhängend oder Möbel montiert werden können. Die Sanitärmöbel sind für Boden- oder Wandanbringung erhältlich, weisen dünne Toilettensitze mit Take-off System, Soft-Close-System und Save Water-System zu 4,5 L auf. Ausgewählte Wand- und Boden-WC-Modelle sind mit der technischen Raffinesse und Effizienz des Spülsystems Swirlflush® ausgestattet.

IT Community è la proposta GSI per l'ambiente bagno pubblico e collettivo. La collezione prevede una linea di prodotti per un'utenza con mobilità ridotta. Completano la collezione bidet e wc ad installazione a sospensione con sistema di scarico Swirlflush® e diversi modelli di orinatoio. I prodotti sono rifiniti con Extraglaze Antibacterial, lo smalto arricchito con ioni di Argento e Titanio che riduce la carica batterica del 99,99%.

EN Community is GSI Ceramica's proposal for public or collective bathroom environments. The collection features a line of products designed for people with reduced mobility and is completed by a bidet and a wall mounted Wc with the Swirlflush® flushing system and different models of urinals. The products are covered with Extraglaze Antibacterial glaze, a special finishing with silver and titanium ions that reduces bacteria counts by 99.99%.

DE Mit Community stellt GSI ein Angebot für Baderäume von Gewerbe- und Büroflächen vor. Teil der Kollektion ist eine Produktlinie für Benutzer mit eingeschränkter Mobilität. Wandhängende Bidets und WCs mit Swirlflush®-Spülsystem sowie unterschiedliche Urinal-Modelle runden die Kollektion ab. Alle Produkte sind mit Extraglaze Antibacterial-Glasur veredelt, eine mit Silber- und Titan-Ionen angereicherte Glasur, die das Bakterienaufkommen um 99,99% reduziert.

IT I piatti doccia GSI sono in ceramica o nell'innovativo materiale composito Compstone. I piani in ceramica si presentano nell'unico spessore di 4,5 cm. I piatti doccia Compstone si adattano alle più svariate possibilità di personalizzazione di forma, dimensione e colore. Tutti piatti doccia possono essere installati a filo pavimento o in appoggio, sono caratterizzati da texture antiscivolo che ricorda la pietra naturale o motivi in rilievo sulla ceramica.

EN GSI's shower trays are in ceramic or in the innovative composite material Compstone. The ceramic bases have a single thickness of 4.5 cm. Compstone shower trays lend themselves to the most varied possibilities of personalization in terms of shape, size and color. All shower trays may be installed flush with the floor or on support and feature antislip textures that are reminiscent of natural stone or raised motifs on the ceramic surface.

DE Die Duschbecken von GSI sind aus Keramik oder aus dem neuartigen Verbundmaterial Compstone gefertigt. Die Keramikbecken werden in der Einheitsstärke 4,5 cm angeboten. Compstone-Duschplatten passen sich den verschiedensten Personalisierungswünschen an Form, Größe und Farbe an. Alle Duschbecken können in flächenbündiger Boden- oder Wandanbringung installiert werden und weisen rutschfeste Texturen in Naturstein-Geschmack oder hervorgehobene Keramikmuster auf.

Compstone Ghiaccio
Piatto doccia / Shower tray / Duschwanne

Altamente resistente, non poroso, omogeneo, Compstone combina le proprietà meccaniche di pietra e resina a vantaggio della lavorabilità del prodotto. Si presta in modo ottimale alla **fresatura** e al **taglio** per ottenere dimensioni particolari con grado di precisione al millimetro. Quando incassato gli angoli perfettamente a 90° su tutti i bordi garantiscono una posa impeccabile a filo pavimento. La sofisticata superficie materica che ricorda la pietra naturale garantisce la massima sicurezza con la texture antiscivolo, e una piacevole, calda sensazione al contatto con il piede. Disponibile in tutti i colori della nostra Collezione Color Elements oppure, a richiesta, in tutte le gradazioni della gamma RAL /

Compstone is highly resistant, non-porous and homogeneous. It has the mechanical properties of both stone and resin, making the product more workable. This facilitates **trimming** and **cutting**, making it possible to obtain extremely accurate sizes even when walls are not perfectly straight. When all corners are at a perfect 90° angle, items can be installed perfectly flush with the floor. The sophisticated material surface, reminiscent of natural stone, ensures the utmost safety thanks to its non-slip texture and a pleasant, warm feeling for the feet. Available in all the shades of our Color Elements Collection or, on request, of the RAL range /

Installazione / Installation / Installation

-  Appoggio / Countertop / Aufsatzwaschbecken
-  Filo pavimento / Flush-fitting / Eingepasste Montage

Personalizza il tuo piatto doccia / Customise your shower tray / Gestalten Sie Ihre Duschwanne individuell

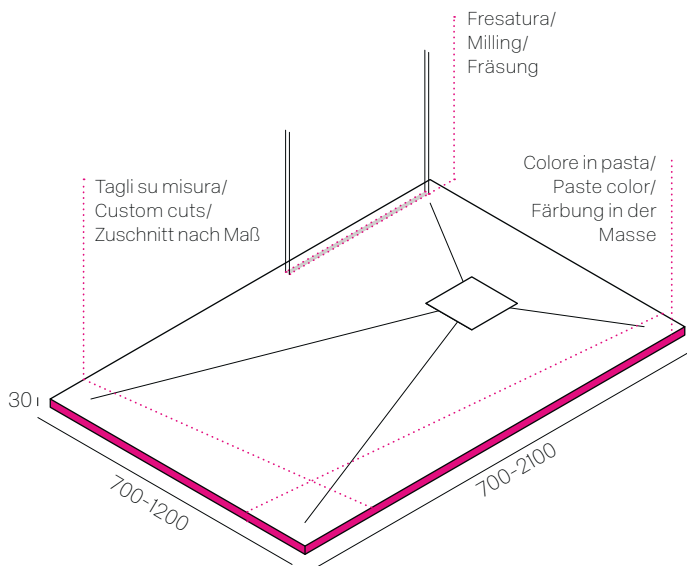

Tutti i piatti doccia Compstone sono personalizzabili: è possibile eseguire tagli su misura per recuperare fuori squadra o per specifiche esigenze di forma e dimensioni nonché lavorazioni speciali per incasso di pareti in vetro. Essendo prodotto con materiale colorato in pasta, anche in corrispondenza di tagli o fresature, lo spessore presenterà le stesse caratteristiche di colore, impermeabilità e resistenza che troviamo in superficie.

Nel caso in cui il piano si scheggiasse o venisse rigato è disponibile un kit di ripristino /

All Compstone shower trays are customizable, and custom cuts can be made to compensate for non-straight walls or for specific shape and size needs as well as special works for glass wall mountings. As it is made with a colored paste material, the material will have the same color, impermeability and resistance properties on the surface and in cut or trimmed zones.

A repair kit is available should the tray be chipped or scratched / Sämtliche Compstone-Duschwannen lassen sich individuell gestalten: Es ist möglich das Material nach Maß zu schneiden, um die Duschwanne an abweichende Winkel oder besondere Formen und Abmessungen anzupassen oder um besondere Verarbeitungen zum Einbau von Glaswänden zu ermöglichen. Da das Material in der Masse gefärbt wird, weist es auch an Schnitt- oder Frässtellen die gleichen Eigenschaften bei Farbe, Wasserundurchlässigkeit und Beständigkeit auf, die an der Oberfläche gegeben sind.

Sollten an der Oberflächen Kratzer oder Absplitterungen entstehen, ist ein Reparaturkit erhältlich.

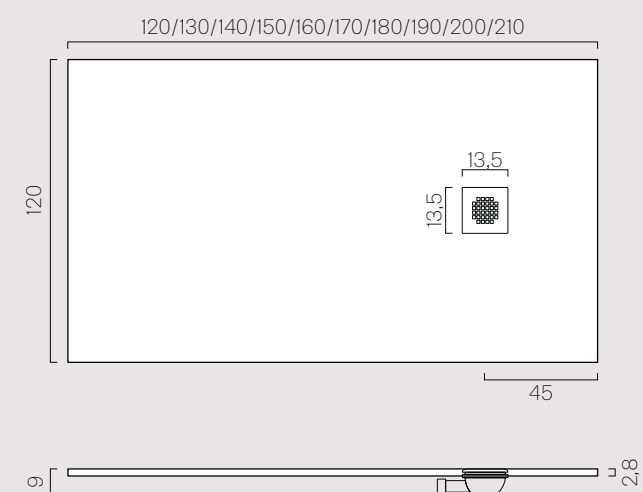

Per tutti i dettagli di codice, lavorazioni e personalizzazioni si rimanda al listino prezzi / Please consult the price list for all code, processing and customization details / Für sämtliche Details hinsichtlich Codes, Verarbeitung und Personalisierung wird auf die Preisliste verwiesen
